

# PRINT RELEASE

MAKE YOUR PUBLICATION "GREEN"

**YOU  
PRINT  
ONE.  
WE'LL  
PLANT  
ONE.**

8333  
SHEETS OF PAPER

1  
TREE

PrintReleaf guarantees every sheet of paper a customer consumes will be reforested. We measure your use, report it to PrintReleaf, and new trees are planted on your behalf in PrintReleaf Certified Reforestation Projects across the globe.

# THE BASICS

Every time you print a publication, we calculate how many tree's worth of paper you consume (on average, 8333 sheets of paper = 1 standard tree). We then upload your paper consumption data into your personal PrintReleaf dashboard at the beginning of every month. As soon as your data is in the PrintReleaf system, it notifies the reforestation project of your choice to plant your trees.

PrintReleaf administers an 8 year audit process to track the progress and viability of your trees. Third party verification and reporting are provided by SGS International – a certifying body recognized as a global authority in quality and integrity. The verification process is visible in your dashboard for transparency and certification.

## PICK YOUR PROJECT

One of the best parts about PrintReleaf is the ability to manage and choose which of the 7 reforestation projects you want to support. Each one has it's own story and goal, so choose which ones feel right to you, and change your preference anytime. All of this can be done from within your personal PrintReleaf dashboard.

Software built in Denver, Colorado. Trees planted around the world.

## PROMOTE YOUR IMPACT

Being "green" is not just a social movement, it is something to be proud of. PrintReleaf makes it easy to showcase your accomplishments with certificates. Download them from your dashboard and share them as you wish. You can also add the PrintReleaf logo to your publications to tell your readership about your green efforts.
